TECHNICAL ASSISTANCE & BEST MATCH MAKING BETWEEN OUR SUPPLIERS AND:

ENGINEERING FIRMS
MECHANICAL CONTRACTORS
MANUFACTURERS/FABRICATORS (OEM)
MAJOR TRANSFORMATION PLANTS

TECHNICAL ASSISTANCE FOR INNOVATIVE PRODUCT SEARCH AND RESEARCH OF TECHNOLOGICAL SOLUTIONS
HIGHLY EXPERIMENTED BANK OF KEY-SUPPLIERS, AND SPECIALISTS IN:
TREATMENT AND FILTRATION OF INDUSTRIAL FLUIDS (WATER, AIR, GAS AND MISCELLANEOUS LIQUIDS)
MECHANICAL PROCESS
FLUID POWER AND TRIBOLOGY

COMBINATION OF THE BEST EQUIPMENT SUPPLIERS AND MANY FILTRATION EXPERTS, MADE FOR YOU

OUR EXPERTISES:
Custom fabrication
Process optimisation
Optimum Maintenance Design

OUR SPECIALIZATION:
Straining, Separation, Filtration
Treatment of all kinds of Industrial Fluids
Chemical Treatments Mediums (Resin, Carbon, etc.)

FABRICATION SOURCING’S AGENTS SUPERVISE ALL BUSINESS RELATIONSHIPS BETWEEN YOU AND OUR SUPPLIERS & EXPERT-PARNERS THROUGH YOUR PROJECTS OR STUDIES. THUS, YOU ARE IN GOOD HANDS FOR TECHNICAL SUPPORT, DESIGN, FABRICATION, TESTS AND OPTIMISATION.

IN ADDITION TO ALL OF THIS, YOU GET A PRIVILEGED ACCESS TO ALL OF THE FOLLOWING PRODUCTS:
• Pressure vessels (ASME design) : filter housing, tank and reservoir, screen distributor, hub and collector.
• Complete water treatment skid-mounted systems: waste water, groundwater and potable water.
• Process water and oily water. Chemical treatments.
• Complete air & gaz handling vessels & units (atmospheric or high press.)
• Complete air treatment packages: Odour adsorption, VOC and dust.
• Manual and automatic straining and filtration systems: strainers, rotary screens and fully-automatic filters.
• Wide Range of pre-filtration systems: from very small to very large flow rates.
• Custom fabrication of screens, baskets and headworks in wedge wire.
• Rental of filtration units and systems for pilot tests and challenges.
• Affordable samples fabrication for trials.
• Innovative products or technology development in partnership with customers.
• Study or survey of a specific process or plant section.
• Optimisation surveys for compressed air quality and treatment.
• Optimisation & upgrade of blowers or hvac intakes
• Trouble shooting, retrofitting and rebuilding of air dryers.
• Chemical and physico-chemical analysis in independent labs.
• Fluid cleanliness analysis (for oils or other fluids).
• Production loss elimination via automatic/automated filtration systems.
• Expensive raw material recovery through our custom filtration systems.
• Feasibility studies for filtration or separation of high TSS fluids.

SPECIAL SERVICES OFFERED TO OUR CUSTOMERS:
